

Recommendations for the *Name* of the association:

Opinions were divided between "LED" variations and TCDA. Suggested variations were:

- Society for luminescence and ESR dating (SLED or ISLED) or LEDS
- International Association of luminescence and ESR dating (IALED)
- International Luminescence & ESR Dating Association" (ILEDA) or LEDA
- Trapped Charge Dating Association (TCDA)

The majority of the Working Group (>2/3) supported **(International) Society for Luminescence and ESR Dating**. SLED (or ISLED) will be suggested as name for the association at the LED in Burgos.
