Ancient TL: Index of authors 1977-1996

Agrawal D. P.

- Physical Research Laboratory TL Dates-1981 (I); *Ancient TL*, 1981, No.14.
- Physical Research Laboratory TL Dates-1981 (II); *Ancient TL*, 1981, No.15.

Aitken M. J.

- Americium - 241 for Alpha Irradiations; *Ancient TL*, 1978, No.3.
- The Alpha Particle Response of Fluorite; *Ancient TL*, 1979, No.9.
- Zero-glow Monitoring (ZGM); *Ancient TL*, 1979, No.9.
- TL Dating in China; *Ancient TL*, 1980, No.13.
- Non-linear growth: allowance for alpha particle contribution; *Ancient TL*, 1984, Vol. 2, No.1.
- Alpha particle effectiveness: numerical relationship between systems; *Ancient TL*, 1985, Vol. 3, No.3.
- Alpha dose to a thin layer; *Ancient TL*, 1987, Vol. 5, No.3.
- Pairs precision required in alpha counting; *Ancient TL*, 1990, Vol. 8, No.2.
- Moisture correction for annual gamma dose; *Ancient TL*, 1990, Vol. 8, No.2.
- The hypothesis of mid-term fading and its trial on Chinese loess; *Ancient TL*, 1991, Vol. 9, No.2.
- Symbols in TL and optical dating: provisional list; *Ancient TL*, 1992, Vol. 10, No.1.

Akber R. A.

- Polonium Loss From Glasses Prepared for Alpha Counting; *Ancient TL*, 1984, Vol. 2, No.1.

Bailiff I. K.

- TL colour: High vs. low dose measurements and the pre-dose mechanism; *Ancient TL*, 1978, No.2.
- A Beta Irradiator for Use in TL Dating; *Ancient TL*, 1980, No.10.
- Emission Spectrum of the 'Facey' Light Source; *Ancient TL*, 1980, No.12.
- TL Dating Service at the Durham TL Laboratory; *Ancient TL*, 1983, Vol. 1, No.2.
- European Network on 'Thermoluminescence Applied to Archaeology'; *Ancient TL*, 1986, Vol. 4, No.2.
- The use of LEDs as an excitation source for photoluminescence dating of sediments; *Ancient TL*, 1989, Vol. 7, No.1.

Balescu S.

- Paleogeographical and stratigraphical inferences from TL properties of Saalian & Weichselian loess of NW Europe; *Ancient TL*, 1986, Vol. 4, No.1.
- TL stratigraphy of loesses: quartz and feldspar dosimeters within loessic deposits from Normandy and France; *Ancient TL*, 1986, Vol. 4, No.3.

Barbetti M.

- More on Filters for Laboratory Illumination; *Ancient TL*, 1979, No.7.

Barrientos Echegaray H.

- Universidad Nacional de Ingenieria (Peru) TL Dates-1983 (I); *Ancient TL*, 1983, Vol. 1, No.1.

Bell W. T.

- Attenuation Factors for the Absorbed Radiation Dose in Quartz Inclusions for Thermoluminescence Dating; *Ancient TL*, 1979, No.8.
- Beta Source Calibration: Some Problems Associated with the Utilization of the Gamma Irradiation of Quartz and Other Phosphors (Part I); *Ancient TL*, 1980, No.10.
- Beta Source Calibration: Some Problems Associated with the Utilisation of the Gamma Irradiation of Quartz and Other Phosphors (Part II); *Ancient TL*, 1980, No.11.
- Alpha Dose Attenuation in Quartz Grains for Thermoluminescence Dating; *Ancient TL*, 1980, No.12.

Benites Legoas S.

- ♦Universidad Nacional de Ingenieria (Peru) TL Dates-1983 (I); *Ancient TL*, 1983, Vol. 1, No.1.

Berger G. W.

- ♦Isolation of Silt-Sized Quartz from Sediments; *Ancient TL*, 1980, No.11.
- ♦5 Spurious Tidbits; *Ancient TL*, 1982, No.18.
- ♦TL behaviour of some limestone rocks; *Ancient TL*, 1984, Vol. 2, No.2.
- ♦Linear regression of TL Data; *Ancient TL*, 1986, Vol. 4, No.2.
- ♦Treatment of error in plateau values - caveat emptor; *Ancient TL*, 1989, Vol. 7, No.2.
- ♦Test data for exponential fits; *Ancient TL*, 1989, Vol. 7, No.3.
- ♦Regression and error analysis for a saturating-exponential-plus-linear model; *Ancient TL*, 1990, Vol. 8, No.3.
- ♦Scatter in luminescence data for optical dating - some models; *Ancient TL*, 1995, Vol. 13, No.1.
- ♦A simple staining method for K-feldspars before sample preparation for IR-OSL Dating; *Ancient TL*, 1996, Vol. 14, No.1.

Beukens R. P.

- ♦Aqua Regia Wash for the Large Grain Dating Method; *Ancient TL*, 1978, No.4.

Bhandari N.

- ♦Physical Research Laboratory TL Dates-1981 (I); *Ancient TL*, 1981, No.14.

Bowman S. G. E.

- ♦A new proposal for the expression of alpha efficiency in TL dating; *Ancient TL*, 1984, Vol. 2, No.1.

Brennan B. J.

- ♦Alpha dose rate calculations in speleothem calcite: values of η and $k_{\text{eff}}/k_{\text{ref}}$; *Ancient TL*, 1989, Vol. 7, No.1.
- ♦Ranges of alpha particles in various media; *Ancient TL*, 1989, Vol. 7, No.2.
- ♦Estimation of accumulated dose and its uncertainties: potential pitfalls in curve fitting; *Ancient TL*, 1992, Vol. 10, No.3.

Brito O.

- ♦Thermoluminescent Dating of Ancient Toconce Potteries; *Ancient TL*, 1980, No.10.
- ♦Pontificia Universidad Católica de Chile TL Dates, 1983 (II); *Ancient TL*, 1983, Vol. 1, No.2.

Brown T. A.

- ♦5 Spurious Tidbits; *Ancient TL*, 1982, No.18.

Bulur E.

- ♦Comment on 'A cautionary note: apparent sensitivity change resulting from curve fitting'; *Ancient TL*, 1992, Vol. 10, No.1.

Bürgi A.

- ♦Cosmic ray dose rate determination using a portable gamma-ray spectrometer; *Ancient TL*, 1991, Vol. 9, No.1.

Burt E. S.

- ♦Sherd Water Uptake Measurements; *Ancient TL*, 1979, No.7.

Bussell G. D.

- ♦Zero-glow Monitoring (ZGM); *Ancient TL*, 1979, No.9.

Carriveau G. W.

- ♦Cleaning Quartz Grains; *Ancient TL*, 1977, No.1.
- ♦Report on 1979 Archaeometry Symposium; *Ancient TL*, 1979, No.7.
- ♦Sherd Water Uptake Measurements; *Ancient TL*, 1979, No.7.

- Even More on Filters for Laboratory Illumination; *Ancient TL*, 1979, No.9.

Chambers D. A.

- An automated beta irradiator using a Sr90 foil source; *Ancient TL*, 1985, Vol. 3, No.3.

Chen R.

- A model for mid-term fading in TL dating; *Ancient TL*, 1993, Vol. 11, No.1.

Clarke M. L.

- Significant peak enhancement of the natural TL signal observed after short term storage at 75°C; *Ancient TL*, 1989, Vol. 7, No.2.

Concha G.

- Thermoluminescent Dating of Ancient Toconce Potteries; *Ancient TL*, 1980, No.10.

Cutter J.

- A test of the single aliquot method of equivalent dose determination for feldspar stimulated by green light; *Ancient TL*, 1994, Vol. 12, No.2.

Davis D. A.

- A simple staining method for K-feldspars before sample preparation for IR-OSL Dating; *Ancient TL*, 1996, Vol. 14, No.1.

Debenham N. C.

- More Hints on Spurious Reduction; *Ancient TL*, 1978, No.5.
- Thermoluminescence dating of loess deposition in Normandy; *Ancient TL*, 1985, Vol. 3, No.1.
- Comments on extrapolation methods of dating sediments by TL; *Ancient TL*, 1985, Vol. 3, No.2.
- Study of the effect of pre-annealing on sediment TL using a technique of glow curve analysis; *Ancient TL*, 1987, Vol. 5, No.1.

Deza A.

- Thermoluminescent Dating of Ancient Toconce Potteries; *Ancient TL*, 1980, No.10.
- Pontificia Universidad Católica de Chile TL Dates, 1983 (II); *Ancient TL*, 1983, Vol. 1, No.2.

Dijkmans J. W. A.

- Preliminary study of the thermoluminescence behaviour of quartz from a Dutch cover sand; *Ancient TL*, 1985, Vol. 3, No.2.
- Dose-rate comparisons of sands for thermoluminescence dating; *Ancient TL*, 1988, Vol. 6, No.2.
- Fractional bleaching of potassium feldspar from sediments and its role in equivalent dose determination; *Ancient TL*, 1989, Vol. 7, No.1.

Driver H. S. T.

- Zero-glow Monitoring (ZGM); *Ancient TL*, 1979, No.9.

Duller G. A. T.

- The effect of optical absorption on luminescence dating; *Ancient TL*, 1991, Vol. 9, No.3.
- The use of a single aliquot method of intercalibration between radioactive sources; *Ancient TL*, 1992, Vol. 10, No.1.

Dunnell R. C.

- Recent addition of potassium: a potential source of error in calculating TL age; *Ancient TL*, 1988, Vol. 6, No.1.

Dupuis C.

- ♦Paleogeographical and stratigraphical inferences from TL properties of Saalian & Weichselian loess of NW Europe; *Ancient TL*, 1986, Vol. 4, No.1.
- ♦TL stratigraphy of loesses: quartz and feldspar dosimeters within loessic deposits from Normandy and France; *Ancient TL*, 1986, Vol. 4, No.3.

Evin J.

- ♦Comments on the Quotation of TL dates; *Ancient TL*, 1983, Vol. 1, No.3.

Fain J.

- ♦The Use of Flotation Techniques to Separate Quartz from Feldspar; *Ancient TL*, 1983, Vol. 1, No.1.
- ♦Comments on the Quotation of TL dates; *Ancient TL*, 1983, Vol. 1, No.3.
- ♦TL dating in the Holocene using red TL from quartz; *Ancient TL*, 1992, Vol. 10, No.3.
- ♦Exponential regressions for TL/ESR using regenerated dose response curves; *Ancient TL*, 1993, Vol. 11, No.1.
- ♦Sun bleaching of the red TL of quartz: preliminary observations; *Ancient TL*, 1994, Vol. 12, No.1.

Feathers J. K.

- ♦Recent addition of potassium: a potential source of error in calculating TL age; *Ancient TL*, 1988, Vol. 6, No.1.
- ♦Important date/strange material; *Ancient TL*, 1993, Vol. 11, No.2.

Fedorowicz S.

- ♦TL studies of Quaternary sediments at the University of Gdansk; *Ancient TL*, 1985, Vol. 3, No.3.

Fenton C.

- ♦Internal dose rates of quartz grains separated from fault gouge; *Ancient TL*, 1990, Vol. 8, No.3.

Flisch M.

- ♦Cosmic ray dose rate determination using a portable gamma-ray spectrometer; *Ancient TL*, 1991, Vol. 9, No.1.

Fox P. J.

- ♦Dating quartz sediments using the 325°C TL peak: new spectral data; *Ancient TL*, 1990, Vol. 8, No.3.

Franklin A. D.

- ♦Extrapolation errors in linear regression; *Ancient TL*, 1986, Vol. 4, No.2.
- ♦Experimental TL techniques for the Inclusion method; *Ancient TL*, 1987, Vol. 5, No.3.
- ♦Isolation of the rapidly bleaching peak in quartz TL glow curves; *Ancient TL*, 1990, Vol. 8, No.3.
- ♦Normalization of inclusion size quartz TL data; *Ancient TL*, 1992, Vol. 10, No.1.
- ♦A model for mid-term fading in TL dating; *Ancient TL*, 1993, Vol. 11, No.1.
- ♦Important date/strange material; *Ancient TL*, 1993, Vol. 11, No.2.
- ♦Lack of interaction between the rapidly and slowly bleaching TL peaks in an Australian quartz; *Ancient TL*, 1994, Vol. 12, No.1.

Franks M.

- ♦Some characteristics of infrared emitting diodes relevant to luminescence dating; *Ancient TL*, 1990, Vol. 8, No.3.

Galloway R. B.

- ♦Notes on a recently constructed TL system; *Ancient TL*, 1990, Vol. 8, No.2.
- ♦Alternative laboratory illumination: 'gold' fluorescent tubes; *Ancient TL*, 1991, Vol. 9, No.1.
- ♦The bleaching of latent optically stimulated luminescence; *Ancient TL*, 1991, Vol. 9, No.3.
- ♦The influence of sample treatment on feldspar dose response; *Ancient TL*, 1994, Vol. 12, No.2.
- ♦A test of the single aliquot method of equivalent dose determination for feldspar stimulated by green light; *Ancient TL*, 1994, Vol. 12, No.2.

Gaulin B.

- ♦ An Inexpensive Method for Separating Quartz from Clay; *Ancient TL*, 1981, No.15.

Goedicke C.

- ♦ Some remarks on fine-grain sample preparation for TL dating; *Ancient TL*, 1986, Vol. 4, No.3.

Göksu H. Y.

- ♦ 110°C TL peak records the ancient heat treatment of flint; *Ancient TL*, 1989, Vol. 7, No.1.

Gottfried M.

- ♦ Important date/strange material; *Ancient TL*, 1993, Vol. 11, No.2.

Grün R.

- ♦ Beta dose attenuation in thin layers; *Ancient TL*, 1986, Vol. 4, No.1.
- ♦ Some remarks on ESR dating of bones; *Ancient TL*, 1987, Vol. 5, No.2.
- ♦ Alpha dose attenuation in thin layers; *Ancient TL*, 1987, Vol. 5, No.3.
- ♦ Internal dose rates of quartz grains separated from fault gouge; *Ancient TL*, 1990, Vol. 8, No.3.
- ♦ Dose response of the paramagnetic centre at $g = 2.0007$ in corals; *Ancient TL*, 1990, Vol. 8, No.3.
- ♦ ESR behaviour of the paramagnetic centre at $g=2.0018$ in tooth enamel; *Ancient TL*, 1991, Vol. 9, No.2.
- ♦ On the selection of dose points for saturating exponential ESR/TL dose response curves; *Ancient TL*, 1991, Vol. 9, No.3.
- ♦ Simulations of saturating exponential ESR/TL dose response curves weighting of intensity values by inverse variance; *Ancient TL*, 1992, Vol. 10, No.3.
- ♦ Suggestions for minimum requirements for reporting ESR age estimates; *Ancient TL*, 1992, Vol. 10, No.3.
- ♦ Uncertainties involved in the measurement of TL intensities; *Ancient TL*, 1993, Vol. 11, No.1.
- ♦ Collection of ESR samples from the interior of mammoth teeth causing minimal damage; *Ancient TL*, 1993, Vol. 11, No.2.
- ♦ An alpha irradiator for ESR dating; *Ancient TL*, 1994, Vol. 12, No.2.
- ♦ A cautionary note: use of 'water content' and 'depth for cosmic ray dose rate' in AGE and DATA programs; *Ancient TL*, 1994, Vol. 12, No.2.
- ♦ Semi non-destructive, single aliquot ESR dating; *Ancient TL*, 1995, Vol. 13, No.2.
